

Jeffrey Border

Senior Product Designer | Fintech & HealthTech

(570) 854-3559 • jeffrey.border@gmail.com • jeffreyborder.com

SUMMARY

Senior UX Designer with over 10 years of experience leading full-stack product design in healthcare and fintech. Skilled at driving user research, interaction design, and design systems in lean and agile environments. Adept at translating complex workflows into scalable, human-centered experiences. Strong partner to engineering and product teams, with a track record of delivering user-centered solutions from discovery through delivery.

EXPERIENCE

Senior UI/UX Designer • Pluto Health, Durham, NC

May 2024 - June 2024

- Redesigned patient onboarding flows across web and mobile through rapid iteration and usability testing, improving access and reducing friction.
- Partnered with engineers and product managers in agile sprints to design clinician and admin tools that streamlined workflows and improved accuracy.
- Developed internal documentation, design systems, and Mixpanel dashboards to support faster iteration, consistency, and data-driven improvements.

Principal UX Designer • Fidelity Investments, Boston, MA

Jun 2022 - Apr 2024

- Led the end-to-end design of core features for the Fidelity Youth app, contributing to over 100,000 downloads since launch, and worked closely with stakeholders to deliver thoughtful, user-centered solutions under tight deadlines
- Designed and launched a new Learning section that achieved a 10% higher engagement rate compared to the adult app, improving content discoverability and user interaction
- Drove early-stage design strategy using sitemaps, wireframes, and prototypes to explore ideas, gather user insights, and iterate rapidly across concept phases
- Advocated for youth-specific design enhancements, including a prominent center button in the bottom navigation and improved visibility of transaction amounts, both of which were later adopted by the flagship Fidelity app
- Built and documented the app's foundational design kit, aligning with both iOS and Material 3 guidelines, and collaborated with the enterprise design system team to ensure consistency and reusability
- Partnered with developers throughout the product lifecycle to ensure feasibility, seamless handoff, high-quality implementation, and provided design QA and support

- Balanced user needs, business goals, and financial compliance through cross-functional collaborative design processes, incorporating feedback from legal, marketing, and customer support teams

UX Designer • Vesta Healthcare, New York, NY

NOV 2021 - MAR - 2022

- Built a Figma design kit based on Material Design, enabling rapid, consistent UI development
- Designed and delivered new features, aligning closely with business goals and user needs

Senior UX/UI Designer • Geisinger Health System, Danville, PA

MAY 2018 - NOV 2021

- Led end-to-end design strategy on the product innovation team, serving as the sole designer across multiple high-impact initiatives
- Guided product teams and cross-functional partners, including clinicians, developers, analysts, and stakeholders through every stage of the design process, from discovery to delivery
- Introduced design thinking practices, earning leadership buy-in and helping operationalize user-centered methods across multiple product teams
- Contributed to the early-phase strategy of Geisinger's digital transformation, helping define user needs and align stakeholders on priorities for modernizing patient and staff-facing tools
- Conducted user research, interviews, contextual inquiries, job shadowing, and surveys to uncover needs and inform strategic product decisions
- Created artifacts to align teams, including personas, journey maps, affinity diagrams, and prioritization frameworks, facilitating collaboration between stakeholders and product teams
- Designed wireframes and interactive prototypes for new digital experiences, ensuring solutions were both user-centered and technically feasible

SKILLS

Design & Strategy: Wireframes, Prototypes, Design Systems, Visual Design, Interaction Design, Lean UX, Design Thinking

Research & Process: User Interviews, Personas, Journey Mapping, Affinity Diagrams, Usability Testing

Tools & Tech: Figma, Mixpanel, Adobe CC, MURAL, Miro, HTML/CSS, JavaScript, React, Next.js, Tailwind

EDUCATION

Bloomsburg University - Ms in Instructional Design & Technology

Bloomsburg University - Bs in Business Administration & Finance
